New colours, new combinations

NUEVOS COLORES, NUEVAS COMBINACIONES

Throughout our history, neutral colours have been one of our most distinctive characteristics. To our unique duo of white and aluminium, we have progressively added a few neutral shades or finishes. Now comes the big jump. Discover our new and colourful colour ranges.

A lo largo de nuestra trayectoria, los colores neutros han sido uno de nuestros rasgos más identificativos de estilo. A nuestro distintivo binomio de blanco y aluminio, le hemos ido sumando progresivamente otros tonos o acabados neutros. Ahora llega el gran salto. Descubre nuestras nuevas y coloridas gamas de color.

Wine colours are sophistication, they are sensuality and they are elegance. They are the drunkenness of the senses, the awakening to escape and eroticism. They are a forest in the fall. Nostalgia and introspection. With dark and golden wood undertones, they show distinction and style; with orange and salmon tones, a more bucolic and luminous atmosphere.

Los colores vino son sofisticación, son sensualidad y son elegancia. Son la embriaguez de los sentidos, el despertar a la evasión y el erotismo. Son un bosque en otoño. Nostalgia e introspección. Con maderas oscuras y dorados, expresan distinción y estilo; con tonos naranja y salmón, una atmósfera más bucólica y luminosa.

Gold is eternity and it is glamour. It is reflections and it is light. It is the brightness of a jewel and the rays of the sun. It's the colour of the fields in the summer. It is heat. It is calm. This finish illuminates and brings warmth to our classic metals, deeply expanding its nuances.

El oro es eternidad y es glamour. Es reflejos y es luz. Es el brillo de una joya y de los rayos del sol. Es el color de los campos en verano. Es calor. Es calma. Este acabado ilumina y da calidez a nuestros metales clásicos, expandiendo profundamente sus matices.

Blue is the sea, the sky, it is freedom, it's a sailing boat moving through the waves, it's freshness and it's steel. It's architecture and nature, ice and Iceland. The selected tones have different intensities with black and grey nuances that dilute their saturation, chameleon like within their respective environments.

El azul es mar, es cielo, es libertad, es un velero surcando el océano, es frescor y es acero. Es arquitectura y es naturaleza, es hielo y es Islandia. Los tonos elegidos tienen intensidades distintas con matices de negro y gris que relajan la saturación hasta hacerlos camaleónicos en el entorno.

Earthy tones are clay, are imperfection, they are the past re-imagined. They are texture and smells captured within a colour. They are raw and visceral. The included options evoke light terracotta and dark night time browns. Tones that recall the most intimate surroundings: the homes of our memories.

Los tierras son barro, son imperfección, son pasado revisado. Son textura y olores encerrados en el color. Son crudos y viscerales. Las referencias desarrolladas evocan luces terracotas y oscuros marrones nocturnos. Tonos presentes en nuestro entorno más íntimo: la casa de nuestra memoria.

Green is tradition, it is quality and warmth.
It is British, it belongs to the indoors and the outdoors; it's vegetation, it's classical and contemporary. With a warm spectrum of tone it has been selected for fabrics with colours that explore indeterminate boundaries between greens and yellows.

El verde es tradición, es calidez y es cercanía. Es británico y es interior, en el exterior; es vegetación y es clásico, en el presente. Con el espectro más cálido del tono hemos seleccionado colores y tapicerías que dibujan fronteras indefinidas entre el verde y el amarillo.

Deep dark brown, like chocolate. Like the wet earth and like the fruits of the forest. Partner of stone and vegetation. A total connection with nature. Tones full of nuances illuminated with ochres, greys and golds, destined for natural ambiances that seek to merge with the environment.

Marrón oscuro y profundo como el chocolate. Como la tierra mojada y como los frutos del bosque. Compañero orgánico de la piedra y la vegetación. La conexión total con la naturaleza. Tonos llenos de matices iluminados con ocres, grises y dorados, para ambientes naturales que buscan fundirse con el entorno.

Light grey is pure and is unreal. It is blunt and it is volatile. It is rotund and delicate. Its veiled and discreet presence is the hallmark of our origins. It is where we came from and where everything is born. Our most meticulous colour, enriched with nuances derived from other shades.

El gris claro es puro y es irreal. Es contundente y es volátil. Es rotundo y es delicado. Su presencia velada y discreta es la insignia distintiva de nuestros orígenes. Es de donde venimos y de donde nace todo. Nuestra gama más minuciosa, enriquecida con matices derivados de otros tonos.

Every detail in SOLANAS's design is conceived to reflect the communicative character and passion of his father, which he made evident at seven in the afternoon, when true to his ritual, he would sit down with his loved ones and share stories and laughter. Daniel Germani wanted to reflect in the collection this loving approach to life by using softer forms in the design with rounded edges, pieces that embrace you and with which to create intimate spaces.

Todos los detalles del diseño de SOLANAS están pensados para transmitir el carácter comunicativo y apasionado de su padre, que se hacía patente a las siete de la tarde, cuando fiel a su ritual, se sentaba con sus afectos a compartir historias y risas. Daniel Germani ha querido reflejar en la colección este momento tan querido suavizando la forma de su diseño con asientos redondeados, y piezas envolventes con las que crear espacios íntimos.

La casa GANDIABLASCO

"Our products speak a language of simplicity, harmony, and proportion. I love Egyptian, Greek and Roman architecture. When I travel, I see classical monuments that look as modern as though they had been built yesterday. Some GANDIABLASCO chaise longues resemble stone or wooden lounge chairs from ancient times. The difference is that we use 21st century materials."

"Nuestros productos hablan un lenguaje de sobriedad, de armonía, de proporción. Soy un apasionado de las arquitecturas egipcia, griega y romana. Cuando viajo veo monumentos clásicos que me parecen tan contemporáneos como si se hubieran construido ayer. Algunas tumbonas de GANDIABLASCO podrían ser camastros de piedra o madera de épocas antiguas. La diferencia es que utilizamos materiales del siglo XXI."

José A. Gandía-Blasco Canales.

La empresa familiar GANDIABLASCO fundada por José Gandía Blasco en el año 1941, reinventada por su hijo José A. Gandía-Blasco Canales, actual Presidente de la compañía, junto a su equipo dirigido por Sergio Pastor, Director General, cumple 78 años sin olvidar sus raíces: un largo viaje que partió de la industria textil valenciana en 1941, al diseño de muebles y espacios de exterior a mediados de los 90, y que actualmente cuenta con distribución en más de 90 países de los 5 continentes, y varios showrooms propios. 78 años después, 2 generaciones continúan en el equipo GANDIABLASCO, José y sus hijos Álvaro, Director Comercial y Vicepresidente de la empresa, y Alejandra, Subdirectora Creativa y de Comunicación.

José Gandía Blasco

_Empresario fundador.

The family business GANDIABLASCO founded by José Gandía Blasco in the year 1941 and reinvented by his son José A. Gandía-Blasco Canales, the current President of the company, together with his team managed by Sergio Pastor, General Manager, celebrated its 78th years without forgetting where it all started: a long journey that commenced with the local textile industry in Valencia back in 1941, to the design of outdoor furniture and spaces during the 1990s and which nowadays is available in more than 90 countries in the 5 continents as well as several of its own showrooms. 78 years later, 2 generations continue to form part of the GANDIABLASCO team, José and his children Álvaro, Commercial Director and Vice President of the company, and Alejandra, Creative and Communications Deputy Director.

La casa GANDIABLASCO

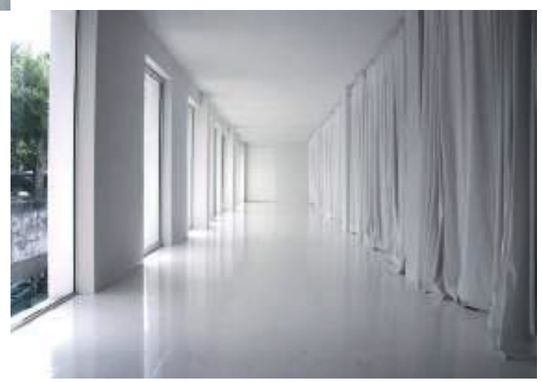
José Gandía Blasco, siguiendo la trayectoria empresarial de su padre, fundó en 1941 Gandía Blasco S.A. con la fabricación de mantas de venta nacional y exportación.

José Gandía Blasco following the family tradition that his father started founded Gandia Blasco S.A. in 1941 with the manufacture of blankets for the national and international markets.

To understand the essence of GANDIABLASCO you need to head to Ontinyent, near Valencia (Spain). There, on the 7.000 m² of a former textile factory, where José A. Gandía-Blasco Canales, President and Creative Director of the company, prescribes the furniture that best reflects his lifestyle. From the studio to the private apartments (pool included!) architecture, furniture, art objects and more all reflect GANDIABLASCO's DNA: Mediterranean, contemporary and free thinking.

Para entender la esencia de GANDIABLASCO hay que poner rumbo a Ontinyent, cerca de Valencia (España). Es ahí, sobre los 7.000 m² de una antigua fábrica de la industria textil, donde José A. Gandía-Blasco Canales, Presidente y Director Creativo de la compañía, edita el mobiliario que mejor refleja su estilo de vida. Desde el estudio a los apartamentos privados (¡piscina incluida!), la arquitectura, el mobiliario, los objetos… todo es reflejo del ADN de GANDIABLASCO: mediterráneo, contemporáneo y libre de códigos.

La idea de "lo esencial"
se percibe a lo largo de
las diversas estancias.



The idea of "the essentials"
It is perceived throughout
the different rooms.

The five-stor e y GANDIABLASCO headquarters, an old blanket factory, is made up of a surprising mix of architectural styles. Half of the total 7,000 m² are used as offices, studios, showroom, shop, and private apartments. The remainder consists of the empty spaces of the original textile mills. The factory that is used for production and storage is ten kilometres away. "This is where you will find the spirit of GANDIABLASCO. What we express through furniture is a way of life," says the Chairman José A. Gandía-Blasco, who detests the word "minimalism"; he prefers the idea of "the essential", which is his view of the Mediterranean lifestyle. José settled here four years ago. "For me, the whole building is my home. When I was young, I came here often."

Las cinco plan tas de la sede de GANDIABLASCO, antigua fábrica de man tas, forman un sorprendente tejido de estilos arquitectónicos. La mitad de los 7.000 m² del conjunto están dedicados a las oficinas, a los estudios, al showroom, a la tienda y a los apartamentos privados. El resto está formado por espacios vacíos de los talleres textiles originales. La fábrica para la producción y el almacenamiento se encuentra a una decena de kilómetros. "Aquí se encuentra el espíritu de GANDIABLASCO. Lo que expresamos a través del mobiliario es una manera de vivir", sostiene su presidente, José A. Gandía-Blasco, quien detesta la palabra minimalismo; prefiere la idea de "lo esencial", a saber, su visión del modo de vida mediterráneo. José se instaló aquí hace cuatro años: "No le disgusta trabajar 365 días al año, pues su trabajo es su vida", comenta.

Interview

_ JOSÉ A. GANDÍA-BLASCO CANALES

Esthete and passionate aficionado of life outdoors José A. Gandía-Blasco Canales is the President and Artistic Director of the Gandía Blasco S.A. family business founded by his father in 1941 that nowadays includes the brands GANDIABLASCO, GAN, Diabla and two more currently in development. He is also responsible for a great many of the outdoor furniture collections.

With interests that go far beyond mere decoration José is fascinated by the cultural aspects of design and contemporary architecture expressed in the creation of the GANDIABLASCO life style with emblematic pieces like DAYBED, MERENDERO, TIPI, CRISTAL BOX, MÓDULOS …etc. that form part of the extensive Outdoor Spaces Line and iconic collections such as SALER, CLIP, 356, LIPSTICK that are seen on terraces of hotels and homes around the world.

But this creative aspect goes even further. José also came up with the structural system using aluminium profiles and polyethylene that characterises GANDIABLASCO, highly resistant materials that were not being used before in outdoor furniture. This new system allowed the design of GANDIABLASCO furniture inspired by the vernacular architecture of Ibiza and other collections. It revolutionised the market and acted as a perfect compliment to contemporary architecture. In this interview José talks about some aspects of the construction system that has continued to evolve exploring new possibilities.

"Beauty has to be functional for any piece of furniture."

Your first outdoor furniture collections were designed with a new constructive system that you designed from scratch. How did you come up with it?

As a kid I was really interested in Meccano and I realised that using its aluminium profiles I could build the structures and furniture that I had always wanted to make.

Which did you come up with first, the aesthetics or the technical solution?

I believe it was something intuitive both came along at the same time.

What materials did you use?

I always worked with different aluminium profiles to construct furniture and structures, but just with that.

Who did you work with to make the first prototypes?

José, from the company Ventacan had always been a close work colleague. At that time he had a window fabrication workshop using aluminium profiles and I suggested making furniture using that same material. He belived in me and became totally involved in the project. He has been there since the first prototypes till today.

The colours of these materials, white and anodized aluminium, have shaped the imagination of GANDIABLASCO all around the world. Did these materials appeal to you for their colour, apart from their quality and technical advantages?

Aluminium has always seduced me for several reasons; one is the colour, but also because it's a modern material, its freshness and lightness. It couldn't be any other material. And white is my favourite colour. The mixture of both has always really appealed to me.

Are these colours related in some way to the Mediterranean and the vernacular architecture of Ibiza?

Houses in Ibiza have always had an irresistible appeal for me because of their simplicity and those cubic forms, as well as their whiteness so typically Mediterranean.

The construction system using aluminium profiles defines the looks of the most iconic GANDIABLASCO collections.

I chose aluminium to express my idea of structure and contemporary furniture because of its qualities, like I said. Undoubtedly using this material was the differentiating factor for GANDIABLASCO from the beginning. Nobody had ever used it like that.

How did it develop? In which of the collections has it best been expressed?

Right now we are trying out new ideas with this material and creating an aluminium profile construction system using the old tongue and groove method, allowing us construct an infinite number of furniture options and which I find particularly exciting.

Do you think technique and functionality are at odds with aesthetics or is it possible to come up with something original and elegant taking these three characteristics into account?

Without doubt one can create taking all three on board. In fact it has to be like that. Beauty has to be functional for any piece of furniture. If not we are moving more into the territory of art but not design nor the creation of useful objects.

Esteta y apasionado de la vida en el exterior José A. Gandía-Blasco Canales es el Presidente y Director Artístico de la empresa familiar Gandia Blasco S.A. fundada por su padre en 1941 y que actualmente incluye las marcas GANDIABLASCO, GAN, Diabla y dos más en proyecto. Además, es quien diseña gran parte de sus colecciones de mobiliario y espacios de exterior.

Las inquietudes de José rebasan la mera estética y se adentran en los aspectos más culturales del diseño y de la arquitectura contemporánea para crear el estilo de vida GANDIABLASCO con piezas emblemáticas como DAYBED, MERENDERO, TIPI, CRISTAL BOX, MÓDULOS… que forman parte de la extensa línea Espacios Exteriores, y colecciones icónicas como SALER, CLIP, 356, LIPSTICK que amueblan terrazas de hoteles y residencias de todo el mundo.

Pero esta creatividad va más allá. José ideó el sistema constructivo con perfiles de aluminio y polietileno que caracteriza a GANDIABLASCO, materiales muy resistentes que no se habían empleado antes en mobiliario de exterior. Este nuevo sistema permitió diseñar la primera línea de mobiliario de exterior de GANDIABLASCO inspirada en la arquitectura vernácula de Ibiza y otras grandes colecciones. Revolucionó el mercado y complementó perfectamente a la arquitectura contemporánea. En esta entrevista, José comenta algunos aspectos de este sistema constructivo que sigue evolucionando para explorar nuevas posibilidades.

“La belleza tiene que ser funcional en cualquier mueble.”

Tus primeras colecciones de mobiliario de exterior las diseñaste con un sistema constructivo nuevo que creaste de cero. ¿Cómo se te ocurrió?

De niño me había interesado mucho el mecano y me di cuenta de que a través de los perfiles de aluminio podía construir estructuras y muebles como siempre me había gustado hacer.

¿Pensaste primero en la estética y luego en cómo resolverlo técnicamente, o fue al revés?

Creo que fue algo intuitivo y ambas cosas se dieron simultáneamente.

¿Qué materiales empleaste?

Siempre trabajé con diferentes perfiles de aluminio para construir muebles y estructuras, pero solamente con esto.

¿Con quién trabajaste para elaborar los primeros prototipos?

Mi compañero de trabajo ha sido siempre José, de la empresa Ventacan. En aquella época era dueño de un taller de construcción de ventanas con perfiles de aluminio y le propuse construir muebles con aquel material. Confió en mí y se involucró totalmente en el proyecto. Ha estado desde la realización de los primeros prototipos hasta hoy.

Las tonalidades de estos materiales, blanco y aluminio anodizado, han configurado el imaginario de GANDIABLASCO en el mundo entero. ¿Te sedujeron por el color, aparte de por su calidad y sus cualidades técnicas?

El aluminio siempre me había seducido por varias razones, una de ellas el color, pero también por su modernidad, su frescura y su ligereza. No podía ser otro material. Y el blanco es mi color favorito. La mezcla de ambos me ha parecido siempre muy seductora.

¿Están vinculados estos colores al Mediterráneo y a la arquitectura vernácula de Ibiza?

Las casas ibicencas me resultan desde siempre irresistibles por su sencillez y esas formas cúbicas, además de por el blanco tan mediterráneo.

El sistema constructivo con perfilería de aluminio define la estética de las colecciones más icónicas de GANDIABLASCO.

Elegí el aluminio para expresar mi idea de estructuras y muebles contemporáneos por sus características, como he dicho. Sin duda, usar este material fue lo que diferenció a GANDIABLASCO desde el principio. Nunca nadie lo había usado antes así.

¿Cómo ha ido evolucionando? ¿En qué colecciones se ha perfeccionado más?

Actualmente estamos experimentando de nuevo con este material y creando un sistema constructivo de perfiles de aluminio con el viejo sistema de machihembrado, que nos permite construir infinitos muebles y que me ilusiona especialmente.

¿Crees que la técnica y la funcionalidad están reñidas con la estética o se puede diseñar algo fresco y elegante teniendo en cuenta estas tres características?

Sin duda se puede crear teniendo en cuenta estos tres elementos. De hecho, tiene que ser así. La belleza tiene que ser funcional en cualquier mueble. Si no, estaríamos hablando tal vez de arte pero no de diseño ni de creación de objetos útiles.

International Design Contest

CULTURE. CULTURA.

Ponemos a prueba el ingenio de los creativos de cualquier nacionalidad con el diseño de un objeto que mejore la experiencia de disfrutar al aire libre.

We test the ingenuity from the creatives of any nationality with the design of an object that improves the experience to enjoy outdoors.

13 years supporting young talent.

We at GANDIABLASCO are searching out creativity and emerging talent from all around the world.

The International Outdoor Furniture Design Contest was conceived for this reason, 13 years giving a voice to the talent of younger generations between 18 and 35 years of age. Each edition we invite along personalities, and sometime friends from the world o culture who stand out in their professional fields whether it be architecture, design or art, advertising or the world of gastronomy…

An interesting encounter between professionals of different profiles, who share a common interest in design culture, communication and art, whatever the expression may be, like the curator and Tate Modern of London Ex-Director Vicente Todolí, the fashion designer Ángel Schlesser, the 3 Michelin starred chef Quique Dacosta, the Room Mates President Kike Sarasola, the architect Fuensanta Nieto, the AD magazine Director Enric Pastor, the architect Manuel Aires Mateus…

13 AÑOS APOSTANDO POR EL TALENTO JOVEN

En GANDIABLASCO apostamos por la creatividad emergente en cualquier lugar del mundo.

El Concurso Internacional de diseño de Mobiliario de Exterior da voz al talento de las jóvenes generaciones entre los 18 y los 35 años de edad. En cada edición, invitamos a personalidades, y en ocasiones amigos del ámbito de la cultura que destacan por la calidad profesional de su trabajo, ya sea la arquitectura, el diseño, el arte, la publicidad, el mundo de la gastronomía…

Un interesante encuentro entre profesionales de diferentes perfiles, que comparten un especial interés en la cultura del diseño, la comunicación y el arte. Entre ellos el curador y ex-director de la Tate Modern de Londres, Vicente Todolí, el diseñador de moda Ángel Schlesser, el chef 3 estrellas Michelin Quique Dacosta, el presidente de Room Mates Kike Sarasola, el arquitecto Fuensanta Nieto, el director de la revista AD Enric Pastor, el arquitecto Manuel Aires Mateus…

DOM PÉRIGNON
Isla Sa Ferradura, june 2018. Spain.

The search for essential elegance leads GANDIABLASCO to collaborate on creative projects that understand contemporary beauty from a shared perspective. Luxury brands such as Dom Pérignon, fully confide in the quality of the GANDIABLASCO outdoor furniture collections for their unique creative experiences in the great outdoors.

La búsqueda de una elegancia esencial hace que GANDIABLASCO colabore en proyectos creativos que entienden la belleza contemporánea de esta misma manera. Marcas de lujo como Dom Pérignon, confían en la calidad de los muebles de exterior de GANDIABLASCO para sus singulares experiencias al aire libre.

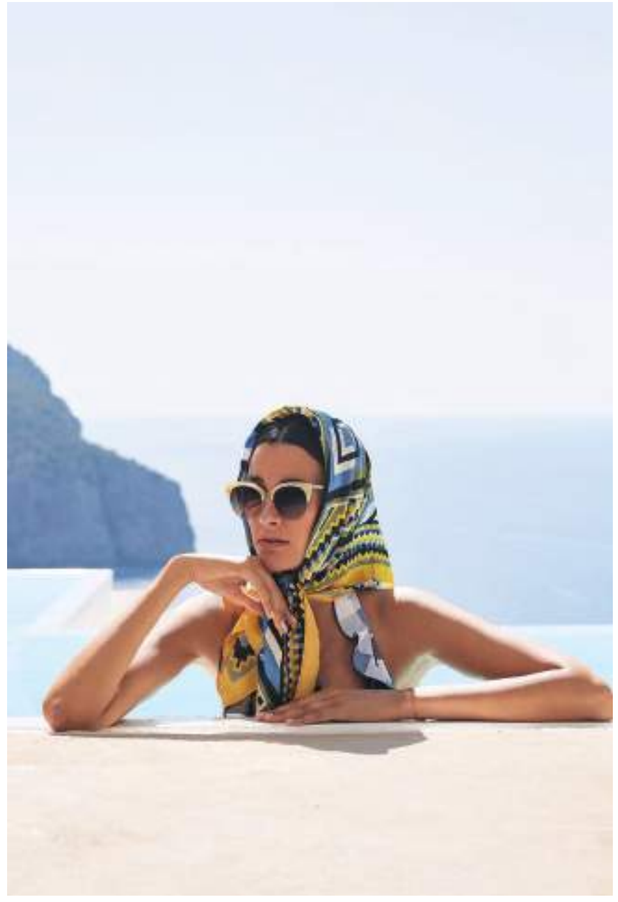
UTERQÜE
La casa GANDIABLASCO, june 2018. Spain.

Uterqüe, the Premium label belonging to the Inditex group, joins forces with the world of design and architectural spaces at La casa GANDIABLASCO in a new advertising campaign *The play of light* that includes a carefully put-together collection of Ready to wear clothing where the quality of the materials and finishes clearly stands out.
The wide open and generous spaces of La casa GANDIABLASCO were the backdrop for *The play of light*.



UTERQÜE
Ca Na Xemena, june 2018. Spain.

La marca Premium del grupo Inditex, Uterqüe, se vincula con el diseño y los espacios arquitectónicos de La casa GANDIABLASCO en su nueva campaña de publicidad *The play of light* que incluye una cuidada colección Ready to wear donde prima la calidad de los materiales y el cuidado por los acabados.
Los espacios diáfanos de La casa GANDIABLASCO fueron el escenario de *The play of light*.

diabla

With the maturity and proven track record of 75 years under our belt at GANDIABLASCO, we have decided to launch a new challenge, DIABLA.
DIABLA is not only a new outdoor furniture brand but an entirely new outdoor line of furniture and accessories for enjoying the outdoors.
Discover Diabla

Con la madurez que nos dan 75 años de trayectoria en GANDIABLASCO nos lanzamos a un nuevo reto, DIABLA. DIABLA no es sólo una nueva marca, sino toda una nueva línea de mobiliario y accesorios de exterior con los que disfrutar de la vida al aire libre.
