Hello again! We are Extremis. We love 'stoverij' – a beef stew with beer – and French... um, Belgian fries.

**We're promoting a Burgundian yet responsible lifestyle.** Belgium is known as the land of culinary treats. At Extremis, we choose quality when it comes to food, and frankly, we should all do the same when we buy furniture as well.

**Belgian fries?** It is rumoured that 'French fries' received their name during World War One. At that time, English speaking soldiers were introduced to the fried potatoes in French-speaking Belgium, but because they thought they were in France, they labelled them 'French'.

This is our very first Gargantua, made in 1994  
(note the traces of wear).

**2010 First Hopper**

see page 38

**2002 First Picnik**

By Dirk Wynants & Xavier Lust  
see page 112

This is a **Gameboy**  
from the same decade.  
Only nostalgia is left.

At Extremis, design has always  
been about the whole cake.

**Our many ecology awards**  
prove we're concerned about  
the world we live in.

**Plenty of design awards**  
certify the originality of our  
designs.

**More, management awards**  
say something about our  
ethical enterprise.

But in the end, we only seek recognition  
from you, our customers.

# Why on earth

At Extremis, we only start  
developing an idea if it is  
both necessary and useful.

We strive to create ideas that are loved for their  
personality, embraced for their quality, and cherished for  
their impact, as true tools for togetherness.

## **Immortal ideas**

We aim to inspire the future  
by changing today's way of  
thinking.

## **Lasting materials**

We employ only the highest  
quality materials and  
cutting-edge processes.

## **Carefully designed**

The best way to make a  
product last, however,  
is to make it beautiful.  
In every aspect.

## **With positive impact**

Designs that have the  
power to spark meaningful  
connections and enhance  
the way we interact with  
one another.

# Gargantua

© Design by Dirk Wynants for Extremis, 1994

According to an American study, parents and children currently only spend an average of 15 minutes together per day. To improve the quality of this togetherness, Dirk Wynants wanted to create a table where children could comfortably sit at the same height as the adults. This was to enable better communication.

# Extremis

Soho business park,  
Tokyo.

# Gargantua

The Gargantua table offers superior functionality thanks to its adjustable benches that can change in height depending on your social or family needs. There is a level for adults, for bigger and smaller children, or the bench can be used as an extension

of the tabletop. Provides space for 8 - 12 people. If one bench is removed, people in wheelchairs can also join the table. Gargantua is also ideal for urban spaces and project environments.

# Inumbr(in)a

© Design by Dirk Wynants for Extremis, 2002

The classic parasol has become so familiar that hardly anyone would stop to consider how it could be redesigned. Inumbra is the result of improving every single aspect a parasol has.

All our designs are original creations and protected by intellectual property rights.

## Extremis

←  
Castle 'De Blankaart',  
Diksmuide.

# Inumbra

Inumbra is unique because of his pure aesthetics. Easy to open and close: the parasol opens and closes with a separate handle. All technical parts that open and close the screen are above the Inumbra's UV resistant fabric, which means they are not visible when seated under the parasol. Inumbra

has been submitted to wind-tunnel testing at the Von Karman Institute. Although the parasol can withstand wind speeds of up to 8 on the Beaufort scale, it is of course advisable to close it sooner (from wind speed 6 as a rule of thumb).

## Dimensions (cm)

# Inumbrina

The major difference between Inumbrina and Inumbrina lies in how they are operated. When converting to a thinner and lighter central pole, the challenge was to replace the handle and

spindle system. Our technical team came up with an ingenious pulley and rope system. Opening and closing the parasol with a rope turns out to be really easy, and even faster!

# Pantagrue

© Design by Dirk Wynants for Extremis, 2014

Pantagrue is a chip off the old block. He's robust, elegant and sober, just like his father Gargantua, designed 20 years earlier. Together they are the most famous giants in European literature. Francois Rabelais describes them as large, strong, high-spirited, intelligent, progressive and crazy about the good things in life.

Want to know more? Order the whole story about the giants!

# Pantagruel

When we started Extremis 20 years ago, we named our first piece Gargantua. It was based on a famous 16th-century series of novels by a French monk, Rabelais, describing the life of two giants: Gargantua - whose appetite was unstoppable -

and his son Pantagruel. The second generation, Pantagruel, is not a better version of Gargantua, he's just different. There are several material options for the frame, fixed benches and tabletop. It also features a Lazy Susan to easily pass dishes around.

# Extempore

© Design by Arnold Merckx for Extremis, 1998

Extempore is the architectural range of tables, benches and chairs Arnold Merckx created for Extremis. As Extempore comes in a vast variety of different possibilities, any need can be satisfied within one range.

## Extremis

Residence in the city centre, Ypres.

## Extempore

Rooftop terrace,  
New York.

## Extremis

UZ Leuven Hospital  
rehabilitation centre,  
Leuven.

# Extempore

Extempore is an extensive, modular outdoor furniture range offering solutions for all your day-to-day needs such as sitting, dining, lying, relaxing, reading, etc. As the Extempore range is made exclusively with top-quality materials, it can be

left outdoors all year round. The range's extensive nature is clearly exemplified by the large choice of table sizes, each with matching chairs or benches, and the foot rest, lounge chair and sun lounger that are also included in the range.

## Romeo & Juliet

© Design by Koen Baeyens, Stijn Goethals & Basile Graux for Extremis, 2009

Romeo & Juliet adds some green to an often colourless urban or industrial setting. The bench is made of long, rectangular strips of wood. Two holes in the seat create room for large flowerpots.

## Extremis

↑  
Romeo & Juliet in a row,  
Tapiola.

→  
Courtyard by The Art  
of Living Magazine,  
Ledegem.

# Romeo & Juliet

Romeo & Juliet offers passers-by a comfortable place to sit and relax and also adds a touch of green to an otherwise drab urban or industrial setting. Two round holes in the seat create room for large flowerpots, perfect for a small tree or a plant of your choice. Just like Romeo and Juliet, the trees are destined to be together without ever being able to

touch. The bench seems to float between the trees. Obviously, Romeo & Juliet lends itself perfectly to the contract market: when several benches are put in line, the distance between the trees remains identical, creating architectural harmony. They are of course perfectly suited to private gardens or patios as well.

# Hopper

© Design by Dirk Wynants for Extremis, 2010

Registered in the U.S. Patent and Trademark Office

At a lively beer festival, elegance is almost certainly not the main concern, but this hasn't stopped us from trying to improve access to the classic picnic table. We managed to incorporate more space at the sides to get in.

All our designs are original creations and protected by intellectual property rights.

## Hopper picnic

# Extremis

Residence by architect  
Inge Clauwers, Lommel.

# Hopper

Hopper clearly bears resemblance to the traditional picnic tables everybody knows, but as is typical of Extremis it offers extra comfort. The four pass-through zones make it easy to get in and out of Hopper without having to lift your leg over the bench

or disturb your table companions. Its slanted legs and tabletop edges are a clear reference to the hop poles that are so characteristic of the Westhoek region. If you turn around, you can use the tabletop as a comfortable backrest.

# Hopper shade

© Design by Dirk Wynants for Extremis, 2010

Extremis' headquarters are based in the only hops region in Belgium, so the hop gardens that dominate the landscape inspired us to design Hopper shade. The slanted poles of the Hopper canopy withstand a lot of stress, just like the poles of a hops garden do.

## Extremis

Residence in the city  
centre, Ypres.

Restaurant 'Va & Vient',  
Kortrijk.

# Hopper shade

Whether open or closed, Hopper Shade perfectly follows the lines of the Hopper table. It opens and closes without any effort, thanks to a spring mechanism inside. And above all, it does not take up extra space next to the table. The goal was to create enough shade for everyone in a simple and aesthetically pleasing way. Dirk Wynants found the

solution in the Hopper canopy. The cloth only has to be closed during strong winds, and then it rolls itself up. The materials used - stainless steel and hi-tech polyester fabric - are highly durable.

# Sticks

© Design by Hsu-Li Teo & Stefan Kaiser for Extremis, 2003

A space divider and the perfect way to create privacy wherever needed, inside or outside. Sticks divide your room or terrace optically, without losing the feeling of spaciousness.

## Sticks

D-Hotel, Kortrijk.

Dividing spaces  
providing transparency,  
Fabaltics.

Extremis HQ,  
Poperinge.

Enlightened Sticks at sunset, Ruddervoorde.

# Sticks

This space divider is ideal for creating a feeling of privacy in a garden or on a balcony without losing the sense of freedom typical of open spaces. Sticks was the result of a search for a multiuse screen with outdoor applications. Use Sticks indoors to adapt the look of a room or office arrangement

entirely to your own taste. With Sticks you can create your own space over and over again. You can also choose which and how many rods you use and create various degrees of transparency, colour combinations or differences in length. Delivered with optional feet for delicate floors.

cafe, Houtkerque.

# Bistroo

When you see the Bistroo you will immediately realise what the double 'oo' is all about. The rounded backrests provide support as you sit side by side, watching the world go by. Three legs, two chairs and one tabletop are the basis of this

innovative concept. The design of this piece makes it perfectly stable on any surface, and what is more, it is faster to stack and lock away than individual tables and chairs.

# Walrus

© Design by Dirk Wynants for Extremis, 2014

Named after the impressive mammal that braves water, weather and wind with its thick, smooth hide, this design combines two different materials in order to fulfil the seemingly irreconcilable requirements of high comfort levels, aesthetics and ultimate weather resistance.

All our designs are original creations and protected by intellectual property rights.

Getting ready,  
Kortrijk.

## Walrus

Private garden by  
landscape architect Bart  
Monbaliu, Zedelgem.

Spa & hotel 'Wu Wei',  
Kortrijk.

# Walrus

Extremis has turned the idea of outdoor seating completely inside out, using a super-robust cover material to make a sleek, weatherproof sofa that always looks great. An ingenious storage pouch in the back of the Walrus hides a foldout blanket and a

thick cushion to provide the softness, comfort and touch that feel best in contact with your body. This softness is provided in a matter of seconds: a warm, dry and comfortable place to sit outdoors is instantly available. Yes, in all seasons!

# Kosmos

© Design by Dirk Wynants for Extremis, 2008

Kosmos is inspired by a yacht's cockpit: "When space is limited, like on a boat, we need to be more creative." Kosmos is the alternative to a combination of table, chairs, lounge chairs, sun protection, and so on. All functionalities combined in one!

All our designs are original creations and protected by intellectual property rights.

## Extremis

An entire day in the Kosmos, Ruddervoorde.

↑  
Mlz office, Japan.

←  
Private rooftop  
terrace, Kortrijk.

→  
The perfect city  
centre patio, Ypres.

# Kosmos

Kosmos has a round shape for more intense conversations and cosier cuddling at night. At its lowest position, the optional adjustable table offers a completely flat surface, transforming Kosmos into

a giant lounger. This multi-purpose set takes you right through the day - from breakfast to sunbathing - without stuffing your roof terrace full of furniture.

# Kosmos Parasol

© Design by Dirk Wynants for Extremis, 2008

We wanted to devise an umbrella that did not stand in the way when it was closed. The original (and patented) innovation is that it simply opens and closes horizontally like a fan... Or a bird's wings. Design by nature!

↑  
Giving shade to Walrus,  
Kortrijk.

←  
Idyllic pontoon, Lake  
Lucerne.

# Kosmos parasol

Kosmos parasol is an ingenious design that opens horizontally like a fan, offering excellent wind resistance (wind force 6 on the Beaufort scale). It hangs low to provide lots of shade, and is perfect for placing next to the Kosmos table and seat

combination or any other furniture. Hidden magnets keep the parasol open. In very windy weather, the magnets will release their grip and the parasol will close automatically.

Holiday home Acotée d'O,  
Gijverinkhove.

# Sol+Luna

Sol+Luna is a two in one piece: furniture that has a function by day and by night. The perfect way to make optimal use of your patio. The Sol+Luna range is in two versions. The southern version, Australis, is clean and architectural, whereas the northern

version, Borealis, has a somewhat more organic look. Depending on the surroundings where the furniture will be placed, you can choose the finish that suits you best.

# Icecube

© Design by Danny Venlet for Extremis, 2002

Hosting a garden party? Icecube prevents your guests raiding the fridge or soiling the whole house. Self-service all night long! And the cool lighting effects get everyone in a party mood...

→  
Garden party, Ardoois.

←  
Garden of an interior  
stylist, Avelgem.

# Icecube

This drink cooler adds the perfect finishing touch to any party, whether indoors or outdoors. Icecube does not only chill the drinks and keep them within reach; its optional lighting unit also creates the perfect party atmosphere. Hosts don't have to wait on their guests or put up with people coming into their kitchen and raiding their fridge. And the cool

lighting effects get everyone in a party mood... Icecube does not contain any cooling elements: Its double wall acts as an insulator. To fill Icecube completely you need 25 kg of ice. Icecube is made mainly of rotationally moulded polyethylene (PE), which is 100% recyclable.
