 GLOSTER

TEAK, CRAFTS & INNOVATION

# OUR HERITAGE

Gloster's roots can be traced all the way back to West Africa in 1960, where a band of passionate entrepreneurs and furniture makers took the first steps on a long journey. By the late 1980's, increased demand and access to plantation grown teak led us to move our factory to Indonesia. Today, the same passion, conviction and pride that launched the Gloster brand, continues to fuel our business. We may live in a different world than the one occupied by our founders, but one thing remains the same - we are furniture makers whose sole focus is to design and build the world's finest outdoor furniture.

# TEAK & PLANTATIONS

The benchmark hardwood for fine outdoor furniture for more than 700 years. With a beautiful, soft natural finish, every piece of Gloster teak originates from carefully managed plantations and is thoroughly inspected to ensure that quality endures. A close-grained hardwood with a high natural oil content, teak is exceptionally hard wearing, highly resistant to rotting and almost impervious to the effects of sun, rain, frost or snow - the first and only choice of timber for outdoor furniture.

Gloster's production of teak is characterised by our approach. We understand our resources and we know our wood. A Gloster teak tree has a lifecycle of at least 50 years - and our wood can always be traced back to its origin. We believe that our customers must be able to trust us, so we treat the world, its resources and its people with respect.

## BETTER DESIGN THROUGH CRAFTSMANSHIP & INNOVATION

Skills & loyalty, tradition & progress. Gloster and fine craftsmanship go hand in hand. Our furniture is not the result of random mass production - human hands have created every rounded corner and every joint, and the quality of the furniture is the result of our employees' knowledge and skills. Our customers must be able to feel the link to themselves when they buy our furniture. There must be a common history present, and a narrative of the life that we love to live. The furniture must speak a language that we understand - a language that awakens our curiosity. But we do not wish to stagnate in the past. We look forward and outward, so the past and future merge into a bold present to which we can all relate.

# OUR DESIGNERS

Of course, great manufacturing is wasted without great design. Gloster currently works with several world-renown designers to create timeless outdoor furniture. Once a concept is approved, designers work closely with the development team at our factory to further refine their designs. And even in this digital age, we insist our designers travel to and spend time at our factory so they get to know our people, our raw materials and our philosophy.

---

# TRUE CRAFT HAS MANY FACES

Just like the oil in our teak, a passion for excellence runs through Gloster. From the timber technician through to the CEO, each is a craftsman in their own way and each takes pride in their contribution to producing the world's finest outdoor furniture.

NOVELTIES

LODGE  
MISTRAL  
AMBIENT PEBBLE

# LIMA FERN

New season, new colours, new fabrics, new designs and new materials. Essential elements that combine to define changes, novelties and innovations. Cutting edge design, innovative materials and the application of new techniques combine to create pioneering furniture collections for the modern era.

## ARCHITECTURE

WILL ALWAYS BE A PART OF THE BACKDROP

Open spaces release the heart and the soul. Vast horizons quietly and gently remind us of a freedom lost for centuries. It's no surprise we love the soft dawn, that we wonder at the ruby and amber of a sunset - lost momentarily as the world revolves.

But even nomadic people crave structure. We all need a silhouette against the bright wilderness. A glowing doorway amongst creeping darkness. To step through and to feel at home.

---

## STEP AWAY

We should never dream to improve upon nature, but we can aspire to compliment her.

The very best of our buildings and our furnishings are not garish obelisks or costly nothings. They are subtle and intelligent reflections of their surroundings. And of course, in all this open space, the final focal point and comfort - beautifully crafted outdoor furniture by Gloster.

The quality and the craftsmanship we put into every piece, is a statement to our respect for nature, making sure any resources are treated with respect and care, thus ensuring a long lasting product.

# LODGE CABANA

A shaded and sheltered second home for one, two or more to escape within - the perfect vessel in which to cast yourself free. Use it as you will; with stylish striped fabrics, luxuriously deep outdoor cushions, oversize pillows and a handy integral shelf for personal effects, Cabana is unquestionably the ultimate outdoor personal space.

20 | 21

# MISTRAL

Curl up in a soft landscape of upholstery and cushions partitioned and protected by impeccably handcrafted wraparound screens. With a perfect balance of subtle and sophisticated details, new seating group Mistral is designed to complement rather than control the surrounding aesthetic. With its pleasing chorus of symmetrical curves and a natural, neutral palette of colours, fine lines and delicate details abound in this low-key style collection from Gloster.

## MISTRAL

Henrik Pedersen, the Danish creative behind some of Glosters' most successful furniture collections, likens his latest design Mistral to a small, standalone hideaway. But mindful that island life can be lonely, Henrik suggests combining several units; "like a small, private archipelago where you seek refuge and hang out in lazy summer days".

An elegant combination of essential materials, Mistral is comprised of a tapered plantation teak platform supported by gently curving cast aluminium legs. Stylish, upholstered cushion pads provide luxurious comfort with a distressed finish, Koala colour outdoor wicker back panel to complete the look.

# AMBIENT PEBBLE

Danish Designer Henrik Pedersen says of his creation; "with its friendly shape and natural textures it's hard not to personify Pebble. So why not invite pebble, invite ambience, invite warmth into your home and see if your evenings and your laughter last a little longer?"

30 | 31

# AMBIENT PEBBLE

With little consideration for the clock, these friendly looking sentinels stand proudly in any setting. The satin finish of their marbled, natural stone bases in Carbon or Fire pairs perfectly with the subtle texture of the resilient Meteor or Terracotta powder coated surface of their gently curving aluminium shades.

## CERCAL HOUSE

In a rural niche of southern Portugal, a beautiful tale plays out. As the clock turned and trade evolved from task to tourism, school friends became architect and client. The strength of the bond translated to a special understanding in the commission. As a result, Cercal House, nestled into the undulations of a long dry water course, combines an intimate collection of details hidden from the world.

And the perfect furniture to complement this striking rural retreat? Lima modular seating by Henrik Pedersen complemented with Ambient Mesh outdoor lighting.

## LIMA STORAGE CHEST & SERVING TABLE

The essence of natural and tactile materials are brought together into one, defined element in the Lima collection by Henrik Pedersen. Plantation teak, outdoor wicker and natural leather are combined in a subtle mix with nature very much in mind throughout the whole design. The variegated colour all-weather wicker features a subtle, distressed finish - giving the furniture a familiar and rustic feel. With practicality at the fore, new additions to the Lima collection offer the opportunity for generous outdoor storage and opulent presentation.

# LIMA

With practicality always in mind, the simple flexibility of the Lima modular elements ensures that you can configure your hideaway however you like. A generous, sociable seating set or a more intimate chaise-longue or sofa - with Lima the only limitation is your imagination.

# LIMA

Plantation teak, outdoor wicker, natural leather and soft-to-the-touch, textured fabrics combine in a subtle mix, where you can sit down, hang out, and feel the warm embrace of nature.

# FERN

Inspired by the delicate fronds of a unfurling fern leaf, the Fern range by Sebastian Herkner is an imposing, yet cosy lounge range with a design language that harks back to nature. Combining Gloster's signature plantation teak with a soft finish outdoor rope, the enveloping, woven back rest both protects and provides the comfort and is attached to a typically Scandinavian style teak frame, which mirrors its contours and underlines the comfort aspects. Two heights of the backrests give the Fern collection two distinct characters - a sumptuous, low lounge chair and a more intimate high back wing chair.

## MIX & MATCH

The freedom of choice is yours...  
Confident styling and a strong, simple colour palette combined with a sophisticated fabric collection, means that the Gloster 2020 lounge collection is more dynamic than ever.

---

## GRID

Danish designer Henrik Pedersen conceived Grid as a bridge between stark minimalist design and large scale luxury. By combining slim, aluminium frames powder coated in Meteor or White with the elegant geometric forms of deep and comfortable seat and back cushions, Henrik has surpassed his goal.

# GRID

A Red Dot Award winner, Grid features fully upholstered outdoor cushions in a wide choice of outdoor fabrics. With matching side and coffee tables with slatted teak or durable ceramic tops, the Grid collection screams taste and style with quiet confidence.

# MAYA

Maya frames feature an ultra-slender powder coated aluminium profile connected to cast aluminium legs. Side and back cushions are subtly revised in profile and detail and additions to the range include console tables and planters that allow for a series of living landscapes to be created outdoors.

# MAYA

Maya takes the principle of the iconic Cloud collection and refines it to reflect and enhance the sophistication of the new Gloster design philosophy. Particular attention has been given to the materials and technologies used that are at the forefront of outdoor furniture design.

70 | 71

# GRAND WEAVE

Nature converted into modern outdoor living. Conceived by noted Danish designer Henrik Pedersen, Grand Weave makes a bold statement that is equal to its name.

# GRAND WEAVE

Following rural cues from hand crafted willow and hazel hurdles, modern materials are combined to create an up to date, resilient twist on rustic seating. Aluminium and textured outdoor rope are cleverly interwoven to create a beautifully tactile seating group at home in any surrounding.

# BAY

Can you recall that sense of escape? Of finally leaning back, forgetting your worries and staring out across the water towards the setting sun? Henrik Pedersen set out to capture the feel of sitting by the coast when designing the Bay collection. The reclined position emphasises an introspective and relaxed state of mind and is intended to create a sense of being at rest in a safe-haven.

---

## BAY

Suitable for quiet family times and day to day life for the style conscious, the vintage lines of Bay's frame are crafted from Gloster's impeccably finished teak combined with upholstered outdoor fabric cushions. A matching slatted teak coffee table and side table complete this timeless collection.

---

## BAY

Whether single statement piece or complete collection, slender minimal slings or deep seating indulgence, Bay represents a step into a simpler world. Take a moment to lie back and enjoy the view.

# LOOP

Broad horizontal lines and assertive angles combine to form the bold, indulgent profile of Loop. But Loop isn't just about first impressions. Look closer and details can be found that further emphasize Gloster's reputation for quality and design. Subtle curves add a level of sophistication. Back straps are deliberately wide to unite materials used. And the junction between strap and teak is proudly displayed, creating a confident line that further unites all seating options.

# LOOP

Loop was conceived by Henrik Pedersen with the purpose of creating a collection that would stand out in any space. As the name suggests, Loop's iconic lines were first drawn with the notion that they would cross design boundaries. Simple and ever popular Scandinavian nuances give way to cleverly integrated comfort.

92 | 93

---

# LOOP

The Danish designer says “Loop is Loop for so for many reasons - to me and perhaps to others it represents a circle in design - looking back to styles that have come before but moving on, all at once. Then of course the materials are physically a loop for structure.”

# HELIO

From the Greek word meaning sun - bright warm and golden. The sun is at the centre of most of our outdoor activities, either escaping it in the shade, or enjoying it in the warm and soothing light it radiates. With the elements in constant rotation, easy and flexible comfort is therefore important. The new Helio collection of sunloungers suits this purpose perfectly. Light, versatile, but still with a fluid and well defined lines, any placement or position can be accommodated without giving it any unnecessary thought.

DINING

X-FRAME  
CARVER  
SPLIT  
CLIPPER

# WHIRL SWAY TUNDRA RYDER

Tables can be large or small, social or intimate. Shapes range from round, through square to rectangular – some can even be extended for when you need to accommodate more people while others fold up for when storage is limited. All in all, the table has quite a job to do, so just as well we offer a wide variety of options to help find the one that is perfect for you.

And the perfect chair should never go unnoticed in the fray of a social occasion. Easy to move and comfortable from first sit to last drink of the night your seating should be the perfect accompaniment to any evening. Whether modern or traditional, conveniently stacking or designed to endure, each chair has its place.

---

## X-FRAME

The humble table. A place to meet, a place to eat, a place to share time, experiences and interact with one another. And why not also enjoy the visual delight of fine design at the same time? The new X-Frame table by Henrik Pedersen allows you to do just this – thanks to a smoked, grey glass top that enables a view to the striking, teak framework below. Expertly crafted from plantation teak, the elegant, yet supremely strong underframe epitomises Gloster's approach to design.

# CARVER

In the same way that an artist carves in stone or wood to create a unique form, the same way of thinking has been applied to the Carver tables, where the cross-rail and legs have been subtly sculpted, like pieces hewn from a solid block.

## CARVER

Designer Henrik's statement is to the point: "In the same way that an artist carves in stone or wood to create a unique form, the same way of thinking has been applied to the Carver tables, like pieces hewn from a solid block." It's easy to see this inspiration... where the cross-rail and legs have been subtly sculpted it doesn't take much to imagine the space between being solid before the legs and frame are skilfully cut with delicate angles.

# CARVER

Carver tables are expertly fabricated using extruded aluminium which is then finished with a durable powder coating in White or Meteor colours. A cleverly designed corner casting ensures absolute stability despite the apparently delicate appearance. Rectangular tables are available in four sizes, with a stylish round version completing the range. All are available with stylish horizontally slatted, teak or Nero colour ceramic tops.

# SPLIT

The legs of the Split table have a very characteristic look with an inverted 'Y' construction and tapering form, which emphasises a light and subtle connection to the ground. The uneven cutting of the teak table top slats adds an organic look, whilst tricking the eye with a visual surprise.

# SPLIT

Thin and crisp twin panels of resilient, heatproof ceramic create a stunningly minimal, yet highly practical top surface. Available in a tough White or Meteor powder-coated finish the tables, while visually light and airy are exceptionally sturdy and are available in the three sizes - large, medium and small.

# MIX & MATCH

Tables offer the perfect starting point to mix and match. Experiment with different frame colours, sizes and table top materials to find the configuration that fits both your style and your space. Finally, choose the right chair to combine - maybe even several different styles for that truly individual look...

# CLIPPER

This nod to nautical heritage is no accident. Inspired by teak decking on the fastest and finest vessels of yesteryear, Clipper echoes the design notes of these pivotal feats of craftsmanship - the Tea Clippers that opened trade routes around the world. Emulating the levels of design and attention to detail that made these ships possible has allowed Danish designer Henrik Pedersen to deliver a new and unique take on dining.

# CLIPPER

Henrik Pedersen was adamant the furniture should clearly reference its inspiration and indeed it does. From finely tapering legs that hint at masts, to the beautiful hull-like radii of the table edge, to the generous deck like slats themselves, this design is as much a story of perfection as it is a catalogue of historic reference.

124 | 125

# WHIRL

As the name suggests, Whirl by Danish Designer Henrik Pedersen is predominantly round. Each table in the collection is based on a full disc - without a beginning or an end, as Pedersen says; "The perfect template for creating a place where you can come together and communicate freely. Indeed, the ideal shape for a table."

# SWAY

Henrik Pedersen says: "In outdoor situations we often spend more time relaxing and lounging, and when dining we tend to take our time. So why not make the situation as comfortable as possible?" With Sway, the Danish designer has combined a finely proportioned teak frame with a practical sling seat and back to deliver inherent sprung comfort despite an extremely minimal profile.

## SWAY

Initially limited to dining chairs only, Henrik has expanded his concept to include the introduction of a bar chair, lounge chair, a two-seater sofa and footstool - adding both bar height and deep seating function and appeal to the Sway range.

# TUNDRA

Here, modern classics are what it's all about. Different materials, which are harmoniously combined, incorporate proven advantages to surprisingly new effect. The interaction of teak and synthetic fibre creates a uniquely individual dynamic with a solid but pleasantly rounded teak frame and slender armrests that are as appealing to the eye as to the hand.

# RYDER

## CHAIR

The converging lines of this Stainless Steel stacking frame are inspired by more traditional folding designs. But in a unique twist, removing the mechanism creates an unprecedented minimalism. Finely balanced on scissor like legs this architectural piece is purely aesthetics driven.

With this extension to a considerable design portfolio, well known Danish Designer, Henrik Pedersen has pioneered a potential classic. Comfort remains priority while form is stripped daringly to a minimum.

As Henrik says, "I believe Ryder is neatly reinforcing the classic design concept of less is more."

COLLECTIONS

DUNE  
KAY  
ARCHI

# WILLIAM CURVE 180

All outdoor functions covered in our classic, enduring collections. From dining tables and chairs through to seating and lounging, the core Gloster collections offer a wide choice of style, materials and functionality. Simply select your preferred style and choose from a variety of products in the knowledge that everything has been considered and optimised to ensure perfect integration.

# DUNE

New for the 2020 Dune collection are dining chairs and two sizes of dining tables to complete the outdoor seating collection launched last year. The spontaneous and cosy character of the Dune collection is a key part of the design language of the new dining elements.

144 | 145

# DUNE

A triumph of combined materials, Dune effortlessly integrates Gloster's signature teak with powder coated aluminium frames, durable ceramic table tops and luxurious knitted fabrics.

# DUNE

Dune is all about the dialogue. The initial idea for the collection was the scenario of having a good time with friends on the terrace - enjoying a cocktail and nice conversation in amazing comfort.

## INTO THE WOODS

Anchored to a Braga hillside high above the Cávado River this concrete, glass and timber fortress protects its occupants from the world behind cantilevered shutters. The only interference, a chattering mountain stream - winds through the architecture to spill from a naturally filtered pool - escaping beneath a vast terrace in the expansive gardens below.

For all its presence, this striking family home by firm Carvalho Araújo, hunkers down amongst old winding roads and hillside plots - almost disappearing amongst the tall eucalyptus. Only upon entering this imposing sanctum can you really appreciate its scale.

# KAY

The backrest is unquestionably the defining statement of the Kay range. Deliberately oversized and beautifully curved for comfort, Kay embraces you as you sit offering comfort and shelter. Available in either Brindle, Harvest or Copper colour 'French Cane' style all-weather wicker combined with a delicate teak frame, Kay's lines combine timeless style with practical comfort.

# KAY

The Kay collection is comprised of a two-seater sofa, an armchair, ottoman and lounger. High and low variations of the back panel are available as options and can be used to create a fully consistent level or a variation in back heights depending on how you wish to style your space.

# ARCHI

Renowned Danish designer Henrik Pedersen combines two simple materials to produce a Lounge Chair that defines the concept of understated elegance. As Henrik says, "The challenge of this design was to create a complex solution from the simplest palette – almost to create everything from nothing. I wanted to create the purest form of seating with the most traditional of materials and yet attain both comfort and a design statement that surpassed more opulent routes".

---

# ARCHI

Scandinavian design meets shaker. This trans-Atlantic concept leaps creative boundaries, combining notes of mid-century architecture and a minimalist aesthetic. At home in any contemporary or classic space, Archi cleverly combines two elemental materials - outdoor rope and Gloster's signature finish teak, to produce furniture that is as perfectly refined as it is striking.

# WILLIAM

The chair designed to fit like a glove. Light, powder coated frames carry the signature, curved teak slats that define the design language of William. And where your hands meet the frame, once again soft teak provides the touch.

# CURVE

## CHAIR

Like the desert sand define the dunes, so the soft curve in the backrest defines the Curve chair. Even though the materials are weatherproof and durable, the inspiration and the task was to make the chairs both comfortable and welcoming.

# CURVE

Based on a powder coated aluminium frame available in either White or Meteor, back rests are an integrated aluminium panel with thoughtfully included handle that not only surrounds and supports, but also extends far enough around to offer a small armrest too.

180 | **181**

# 180

## LOUNGE CHAIR

Henrik Pedersen is no stranger to simple practicality. The respected Danish designer has cleverly emulated lines of traditional wooden furniture using powder coated aluminium and weatherproof sling to create both the stand out 180 Stacking Chair and the equally impressive 180 Stacking Lounge Chair. Followed with the equally attractive and no less practical matching Stacking Lounger, all are available in a variety of finishes. Henrik says “Travelling, exploring and being inspired by the moment are essential to being able to see beyond tomorrow.”

# 180

Starting with a simple chair, the no-nonsense lines of 180 have the hallmark of a functional favourite. With clearly matching design cues, a comfy lounge chair and lounger compliment this popular aluminium and sling collection. The same delicate geometric lines and straight-forward stacking system is applied to all pieces.

184 | 185

DECO

AMBIENT  
FIRE BOWL  
HALO  
BLOW  
BELLS

# TRIDENT ACCESSORIES RUGS BASKET RAW

What is a home without a few unique enhancements to add that final touch of style? Solar powered, wireless outdoor lighting, heavy duty outdoor rugs, dual-function stools / side tables and a rustic basket to keep small items safe and at hand. Combining tactile materials with beautifully detailed finishes, the Deco range of occasional items is the stylish way to bring your outdoor experience to life.

## AMBIANCE

Light extends the scope of outdoor living and is an essential part of the Gloster collection. Our portable lights create the right ambiance and set the mood for an overall warm and cosy experience in almost any outdoor space.

# AMBIENT RAY

Like the beams of sunlight breaking through gathering clouds, the Ambient Ray lantern both illuminates and inspires. Expertly crafted from fine sections of rounded teak and topped with a natural leather handle, this striking, yet practical outdoor light is the perfect addition to any outdoor space.

# AMBIENT

## LINE

Elegant and precious. Using a mouth-blown, smoked glass cylinder with retro styled ribbed glass detailing and a cast metal frame, Ambient Line by Sebastian Herkner is a classical solution to portable outdoor lighting. The collection exists in two forms, one with cast metals handles to carry them around, another with a permanent metal stand to make an impression.

# AMBIENT COCOON

Enjoy outdoor living even after the sun goes down. Portable, remote controlled illumination with style, but without strings. Charge during the day and use at night to create the perfect mood.

Mimicking the perfect texture and symmetry of silk cocoons, these minimal and delicate looking lanterns are deceptively tough. Manufactured from modern plastics and combined with a striking solid, teak handle of almost agricultural purity, these (solar LED) lights are as much about design as they are about illumination.

Asked about the design influences, designer Henrik Pedersen says "My path in design has led me through many parts of the world, many cultures... Light and warmth are always principal parts of the best social environments and the most modest of devices are often the most effective. Here I combine the worlds of simplicity and light to achieve beautiful background illumination".

# LIGHT & SHADOW MAKE THE SHAPES COME ALIVE

Like semi-transparent structures, they present themselves in the dark. A beacon calling out, inviting you in and creating an imaginary room with a soft and warm ambiance.

# AMBIENT MESH

Ambient Mesh by Henrik Pedersen hints to rustic origins. Here, the latticework of woven shades in a variety of sizes and colours, paints a subtle pattern in the dark - breaking up straight lines and creating a whole new set of outdoor decorations.

---

## AMBIENT LANTERN & NEST

Inspired by the precise designs of the weaver bird, these nest like suspended lanterns gently rotate and sway in the evening breeze. As the night draws in, the soft light shining through the detailed weave throws dancing shadows as the setting sun shimmers through the leaves.

# FIRE BOWL

Like moths to the light, we are all drawn towards a flickering flame. As the day draws to a close and the temperature drops, kick back and relax with friends and family - a fire bowl creating the perfect focal point to enjoy the setting sun whilst enjoying the warmth of good company.

WHATEVER YOUR  
REQUIREMENTS, GLOSTER  
HAS A SIDE TABLE TO  
SUIT. THE PERFECT SIZE,  
THE PERFECT SHAPE  
AND THE PERFECT STYLE  
IS SURE TO BE FOUND  
SOMEWHERE WITHIN  
OUR WIDE OFFER OF  
PRACTICAL OCCASIONAL  
TABLES.

# BLOW

Bring sophisticated glazes in subtle hues to your life outdoors. The soft lines and natural tones of these beautifully rounded ceramic bases combine perfectly with solid, teak table tops. Eye-catching and inspiring, these accent pieces beautifully reflect light across their soft, round surfaces and compliment any item in the Gloster range while adding character to any outdoor space.

The image features three modern side tables, each with a smooth, curved, bell-like base and a flat, round wooden top. The bases are in white, terracotta, and sage green. The wooden tops have a natural grain and a small circular hole. They are arranged on a light grey surface, casting soft shadows. The text is centered in the upper half of the image.

# BELLS

## A CURVACEOUS CLASSIC

The inspiration is almost too obvious - two bells joined together to make up the shape of this iconic side table. The organic and fluid lines make an eye-catching addition to any outdoor area.

---

## TRIDENT TABLE

The Trident collection takes its inspiration from classic, clean lines and modern, minimalist design. This Retro side table made with an aluminium frame and teak top is a delightful and practical accompaniment to any outdoor collection.

---

## BIRD FEEDER & NESTING BOX

“Everyone likes birds. What wild creature is more accessible to our eyes and ears, as close to us and everyone in the world, as universal as a bird?” - David Attenborough

The bird feeder and nesting box are the first examples of Gloster’s introduction of smaller accessories designed to heighten the outdoor experience. Both combine aluminium and solid teak in way that is entirely practical but also entirely contemporary.

## RUGS

Heavy duty outdoor rugs are available in either round or rectangular sizes and in several stylish colours of braid. These rugs are woven and are the perfect complement to provide that finishing touch to both dining and seating sets.

# BASKETS

Adding refinement to a simple concept, Gloster's woven basket features a rustic finish and is ideal for keeping small items safe and at hand. Just like our rugs, baskets are beautifully hand crafted and finished with an impeccably detailed, hand stitched natural leather handle.

As with our own fingerprints, so every teak tree is one of a kind. Even within the managed plantation environment, no two trees share the same ground or reach for the light in the same way and thus, each grows and matures in its own unique way with the natural variations and irregularities that give timber its inherent appeal. Every growth ring, every knot and the graceful ebb and flow of the grain stands testament to its journey from young sapling to mature tree – a journey of up to 70 years.

# GLOSTER FABRICS

No matter which type of fabric you choose for your cushions, Gloster only use the best outdoor fabrics that are manufactured using 100% solution dyed acrylic yarns for maximum resistance to the fading and degrading effects of sunlight. All fabrics are finished with a water-repellent

coating on the surface to reduce water absorbency. If the fabric does become wet from prolonged exposure, they will come to no harm, and the fabrics will dry out naturally. Gloster cushions are offered with fabrics that fall into three distinct groups:

## OUTDOOR PERFORMANCE

Offered in a wide selection of stylish and sophisticated fabrics with a soft hand, our Outdoor Performance cushions use the softest, most luxurious fillings that give

the feel of the most comfortable indoor furniture. A highly water-resistant barrier beneath the outer fabric cover protects the fillings, keeping drying times to a minimum.

### MAXIMUM WATER RESISTANCE

For maximum water resistance, a selection of Sunbrella® Rain cover fabrics features a water-resistant coating that is applied to the back face, helping prevent water travelling beyond the surface of the fabric. Although not offering quite the same soft hand as our other fabrics, these water resistant fabrics are very practical and quick drying. The fillings inside the cushion are engineered using open cell materials to allow for maximum air circulation, helping to speed up the drying process even further.

### MAXIMUM SOFT TOUCH

Combining with all the benefits present in Outdoor Performance cushions, Gloster offer this range of exclusive, knitted outdoor fabrics, the first to be produced using 100% solution dyed acrylic yarns. These knitted fabrics offer the ultimate in terms of softness, giving a sumptuous cosy feel, while the inherent stretch allows for the perfect fit to even the most demanding of cushion shapes. The Wave fabrics feature a unique, 3D knitted structure giving levels of texture and softness unparalleled in outdoor fabrics.

TEAK, CRAFTS & INNOVATION

TECH SPEC

2021 COLLECTION

 GLOSTER

TEAK, CRAFTS & INNOVATION

# TERMS & POLICIES

## AVAILABILITY

We aim for high stock availability from our German warehouse and the average delivery time for goods on stock is from 2 - 5 weeks (always depending on the final destination in relation to the distance from our warehouse in northern Germany, local forwarding services, local tax authorities etc.). For goods that are over sold and/or out of stock the delivery time is up to 14 weeks \*

\* Does not apply to contract sales.

For contract orders, each project will be processed on a case-by-case basis and lead times confirmed separately.

Items marked with ● are limited availability products. These products are no longer manufactured and will only be available until existing stocks have sold out.

## NATURAL / BUFFED TEAK

As part of our normal product update programme, we are discontinuing the buffed teak finish on all products and switching to natural teak finish instead for all new production. However, due to existing stocks of buffed finish goods still in our warehouse, delivered goods could continue to be in buffed finish for some time until these stocks are exhausted. This also applies to red status items, where we only have buffed finish products in stock and will not be replacing with natural finish once sold out.

## CUT & SEW CUSHION PROGRAMME

Cushions are made via our local Cut & Sew supplier in Germany. When the order for cushions is received, a purchase order is created and the cushions are produced at our supplier. The order is then passed over to our warehouse for packing and onward shipping to its final destination. We aim for a total lead time of 20 working days from receipt of initial order to shipment of the finished cushions.

## ASSEMBLY

Most Tables, Chairs & Loungers require assembly.

## RETURNS POLICY

Written authorisation must be obtained from Gloster prior to returning any products. Products returned without prior written authorisation will be refused.

Defective products returned are inspected by our Quality Control Manager and replaced or repaired if the damage is a result of a manufacturer's defect. If it is determined not to be a manufacturer's defect, the customer, along with the Quality Control Manager will decide what further action to take.

For non-defective products returned as an unwanted order, a 15% handling fee will be applied and the customer is liable for all shipping charges involved in returning the items back to Gloster.

Returned goods will only be accepted if returned in their original packaging, thereby suitable for re-sale.

## AREAS OF USAGE

Certain products are exclusively recommended for use in the residential sector. Please contact your Sales Manager who can advise if a requested product is suitable for contract use.

For use in public areas, in which the furniture is exposed to particularly high stress, such as public educational institutions, fast food restaurants or meeting places, special requirements and standards apply. Please always ask about the suitability of the respective Gloster products for these areas before placing an order with our company.

## DISCLAIMER

Although the information in this brochure is presented in good faith and believed to be correct at the time of printing, Gloster makes no representations or warranties as to the completeness or accuracy of the information. Gloster accepts no liability for any errors or omissions. Gloster reserves the right to change specifications and descriptions in the light of technical developments and the availability of materials. We try to edit our photos to show our product finishes and fabrics as life-like as possible, but colours reproduced in print will never be 100% representative of actual colour. We cannot guarantee that the colour you see in our literature or on-line, accurately portrays the true colour of the product in real-life lighting conditions.

# BETTER DESIGN THROUGH CRAFTSMANSHIP & INNOVATION

With a series of uniquely styled products Gloster offers the opportunity to mix and match with an extensive range of diverse product collections.

From modular seating through dining tables & chairs, lounge and deco items, our collections combine sophisticated fabrics, textured powder coat finishes and of course our signature finish, plantation teak.

TEAK FINISH

WICKER COLOUR

TABLE TOP

NATURAL / BUFFED TEAK

NATURAL

WHEAT

GREY  
GLASS

As part of our normal product update programme, we are discontinuing the buffed teak finish on all products and switching to natural teak finish instead for all new production. However, due to existing stocks of buffed finish goods still in our warehouse, delivered goods could continue to be in buffed finish for some time until these stocks are exhausted. This also applies to red status items, where we *only* have buffed finish products in stock and will not be replacing with natural finish once sold out.

# BAY LOOP CRADLE HELIO

Relaxation is about perfect space. About comfort and convenience. A blend of personal style and the simplicity of keeping your favourite things close at hand. So it's no surprise that Gloster Lounge offers the ingredients to mix the perfect personal relaxation recipe. And, as with all the best ideas, simplicity is the key with our modular collections providing the building blocks to create almost limitless design possibilities.

FINISH TEAK

BUFFED  
FINISH TEAK

## NATURAL / BUFFED TEAK

As part of our normal product update programme, we are discontinuing the buffed teak finish on all products and switching to natural teak finish instead for all new production. However, due to existing stocks of buffed finish goods still in our warehouse, delivered goods could continue to be in buffed finish for some time until these stocks are exhausted. This also applies to red status items, where we only have buffed finish products in stock and will not be replacing with natural finish once sold out.

The humble table. A place to meet, a place to eat, a place to share time, experiences and interact with one another. Tables can be large or small, social or intimate. Shapes range from round, through square to rectangular. All in all, the table has quite a job to do, so just as well we offer a wide variety of options to help find the one that is perfect for you.

And the perfect chair should never go unnoticed in the fray of a social occasion. Easy to move and comfortable from first sit to last drink of the night your seating should be the perfect accompaniment to any evening. Whether modern or traditional, conveniently stacking or designed to endure, each chair has its place.

NOTES

RAW Sapwood Edge tables retain the natural edge of the board. During the life cycle of the tree, the sapwood will often be attacked by wood boring insects. The kiln drying process rids the timber of any insects. The small holes in the face of the sap, and burrows on the surface of the sap are all part of the natural character of the timber.

## TEAK FINISH

NATURAL  
FINISH TEAK

## NATURAL / BUFFED TEAK

As part of our normal product update programme, we are discontinuing the buffed teak finish on all products and switching to natural teak finish instead for all new production. However, due to existing stocks of buffed finish goods still in our warehouse, delivered goods could continue to be in buffed finish for some time until these stocks are exhausted. This also applies to red status items, where we *only* have buffed finish products in stock and will not be replacing with natural finish once sold out.

## NOTES

## DIRECT SHIP

NATURAL

METEOR

The teak used for the screen slats are produced from the small off-cuts that result from our standard furniture production process. As a result, colour may vary between slats and some slats may include small knots. These imperfections are purely cosmetic and do not affect the performance of the product in any way.

All Deco Screens are included in our Direct Ship programme. Direct Ship products are stocked in our factory in Indonesia. Delivery time from date of order is approximately 8 weeks.

# DECO SCREENS USAGE GUIDE

DESIGNER · MARK GABBERTAS · UK

**A**  
SMALL "L" SCREEN

**B**  
LARGE "L" SCREEN

**C**  
"T" SCREEN

**D**  
STRAIGHT SCREEN

ALWAYS COMBINE AT LEAST 2 SCREENS THAT ALLOW A SUPPORTING PANEL TO THE FRONT AND THE BACK

THE STRAIGHT SCREEN MUST ALWAYS BE CONNECTED TO ANOTHER SCREEN ON BOTH EDGES

ON LONGER RUNS OF SCREENS, EVERY OTHER SCREEN MUST HAVE A T-SHAPE SUPPORTING PANEL TO THE FRONT OR BACK

BLOCK COFFEE TABLE 63cm x 63cm

W · 63    D · 63    H · 36

Natural finish, exposed end-grain teak.  
Recessed carrying handles on two sides.

ITEM NUMBER  
105965 : Deco Block Coffee Table 63cm x 63cm

## TEAK FINISH

## NOTES

Visible cracks on exposed end grain of timber components is normal. The end grain is the part of the timber where the growth rings are exposed. Although we aim to keep the presence of end grain to a minimum to reduce the risk of splits and cracks, it is sometimes inherent in the design of our product. In our Block items, we make a feature of the end grain. As the timber is exposed to changes in temperature and humidity, small cracks will open in the end grain. This will not affect the strength, performance or life expectancy of the product. In fully exposed positions, the cracks will appear quite quickly, and will be deeper. In covered locations, the cracks will be less visible.

## FRAME COLOURS

## TEAK FINISHES

## NATURAL / BUFFED TEAK

As part of our normal product update programme, we are discontinuing the buffed teak finish on all products and switching to natural teak finish instead for all new production. However, due to existing stocks of buffed finish goods still in our warehouse, delivered goods could continue to be in buffed finish for some time until these stocks are exhausted. This also applies to red status items, where we *only* have buffed finish products in stock and will not be replacing with natural finish once sold out.

# DECO RUGS / BASKET

DESIGNER · HENRIK PEDERSEN · DENMARK

Box set containing 1x 1,000 ml bottle of Teak Sealer, 1x 1,000 ml bottle of Teak & Upholstery Cleaner & 1x 1,000 ml bottle of Teak & Upholstery Protector.

ITEM NUMBER  
104777 : Product Care Box Set

FABRICS

# GLOSTER FABRICS

No matter which type of fabric you choose for your cushions, Gloster only use the best outdoor fabrics that are manufactured using 100% solution dyed acrylic yarns for maximum resistance to the fading and degrading effects of sunlight. All fabrics are finished with a water-repellent

coating on the surface to reduce water absorbency. If the fabric does become wet from prolonged exposure, they will come to no harm, and the fabrics will dry out naturally. Gloster cushions are offered with fabrics that fall into three distinct groups:

## OUTDOOR PERFORMANCE

Offered in a wide selection of stylish and sophisticated fabrics with a soft hand, our Outdoor Performance cushions use the softest, most luxurious fillings that give

the feel of the most comfortable indoor furniture. A highly water-resistant barrier beneath the outer fabric cover protects the fillings, keeping drying times to a minimum.

### MAXIMUM WATER RESISTANCE

For maximum water resistance, a selection of Sunbrella® Rain cover fabrics features a water-resistant coating that is applied to the back face, helping prevent water travelling beyond the surface of the fabric. Although not offering quite the same soft hand as our other fabrics, these water-resistant fabrics are very practical and quick drying. The fillings inside the cushion are engineered using open cell materials to allow for maximum air circulation, helping to speed up the drying process even further.

### MAXIMUM SOFT TOUCH

Combining with all the benefits present in Outdoor Performance cushions, Gloster offers this range of exclusive knitted performance fabrics that are the first to be used outdoors. These knitted fabrics offer the ultimate in terms of softness, giving a sumptuous cosy feel, while the inherent stretch allows for the perfect fit to even the most demanding of cushion shapes. The Wave fabrics feature a unique, 3D knitted structure giving levels of texture and softness unparalleled in outdoor fabrics.

# FABRICS

## SPECIAL FEATURES

### RAIN FABRICS

Sunbrella Rain is a water resistant version of the standard Sunbrella upholstery fabrics. Rain fabrics are treated with a weatherproof coating that minimises water absorption and enables the cushion to dry out much faster than standard fabrics. Rain fabrics can be completely moisture-free within minutes after a simple wipe-down. When wet, the fabric threads expand slightly, meaning any water simply beads up on the fabric surface, rather than seeping into the cushion filling and leaving behind residual moisture. Rain fabrics are a little stiffer than the traditional Sunbrella fabrics, but they share the same market-leading performance in terms of durability, fade resistance, and ease of cleaning - making them the ideal choice for all outdoor living and dining spaces.

### UKFR (FIRE RESISTANT) FABRICS

In addition to our standard grades of fabrics, we also offer five specific fabrics in fire resistant versions. The fire resistant versions of Sailing Seagull, Cameron Granite, Fife Rainy Grey, Blend Linen and Blend Coal have an additional back coating applied to ensure they meet the stringent UKFR (Fire Resistant) standard. These fabrics are not water resistant, so we recommend that furniture covers are always purchased when specifying these cushions.

### RECYCLED CONTENT FABRICS

The Grade B fabrics, Cameron Granite & Cameron Anthracite, both contain Sunbrella Renaissance yarns, which are recycled yarns that emulate a homespun look with a natural diversity of colour within the yarn. Due to the nature of the recycled content, these fabrics may exhibit random colour specks and shade variations. These slubs can sometimes be a contrasting colour. The recycled content used is collected from the Sunbrella manufacturing facility, where the waste is segmented into colour groups, reduced back to its fibre state and finally mixed with virgin fibre before making its way through the manufacturing process. Due to the recycled nature of this fabric, the colour may vary between production batches and large sections of recycled yarns may run sporadically throughout the fabric. The presence of these recycled yarns should not be interpreted as imperfection, but as part of the character of the recycled fabric.

HALO PARASOLS WARRANTY

**3 YEARS** - Structural components, fittings and mechanisms, covering materials and workmanship in normal use, not including superficial or accidental damage, or expected normal wear and tear.

**1 YEAR** - Powder coat finish, covering adhesion and environmental resistance, not including superficial or accidental damage, or expected normal wear and tear.

# WARRANTY

## 2021 WARRANTY TERMS

Gloster Furniture warrants to the original purchaser that our outdoor furniture is free from defective materials and workmanship under its intended reasonable use.

The warranty starts from the date of sale to the end consumer.

The warranty is non-transferable, and is applicable to the original purchaser only. Proof of purchase will be required.

Any product believed to be of faulty materials or workmanship should be reported to Gloster Furniture as soon as reasonably possible.

Following Gloster Furniture's assessment, any fault found and covered by this warranty will be rectified by the replacement or repair of the faulty part or product. If deemed necessary to return for repair, Gloster Furniture will arrange for the product to be returned to us via our choice of transit, repaired, and returned free of charge. Circumstances may dictate that local repair is best course of action.

No returns are accepted without prior authorisation from Gloster Furniture.

The product must not have been misused, or handled carelessly, nor been damaged, neglected, or used in abnormal conditions.

The product must not have been modified, altered in any way, or repaired by anyone other than a member of Gloster staff or their appointed representatives.

The warranty will only be valid if proper maintenance and cleaning have been carried out in accordance with Gloster's aftercare instructions.

This warranty does not apply to normal wear and tear caused by regular use.

Damage such as dents, scratches, marks and tears to fabrics or fibres that have happened during normal use are not covered by this warranty.

Small cracks, which may appear in the end grain of teak when exposed to the elements, and any change of appearance due to usual weathering are considered entirely natural for teak outdoor furniture and are not covered by this warranty.

Wheels and footcaps are excluded from the general warranty, but are guaranteed for a period of 1 year from the date of delivery.

Sling / Strap / Rope warranty covers against tearing, discolouration or fading. Normal sagging is to be expected in use, and is not covered by this warranty.

Due to the nature of the planks used to create RAW table tops, any splits, cracks in the end grain, hollow knots, twisting of timber over time or degradation of the sapwood when outdoors are considered entirely natural for thick-plank, teak outdoor furniture and are not covered by this warranty.

## REPORTING OF COMPLAINTS

In order to look in to complaints/warranty issues Gloster requires ALL of the following information provided in one single email:

Photographs of the issue - general overview and close ups of specific areas of damage and/or failure.

Product code of item affected.

Batch number & country of origin - this can be found on a small silver rectangular label which is located out of sight, usually on the underside of the item (on the inside of the zipper on cushions / on the label on covers), containing a 6 digit number and the country of origin.

Date of purchase - please send a copy of the invoice as proof of the purchase date.

Location of furniture - e.g. coastal / inland / swimming pool.

Brief description of the damage and how the damage occurred.

Please always use a reference, i.e. customer name in the title of the email, so it is easy to track.

Once all of the above information has been received, we will review the case and advise in due course.

## RETURNS POLICY

Written authorisation must be obtained from Gloster prior to returning any physical products.

Products returned without prior written authorisation will be refused.

Gloster only accepts the return of a product if it is a manufacturer's defect.

Returned products are inspected by our Quality Control Manager and replaced or repaired if the damage is a result of a manufacturer's defect. If it is determined not to be a manufacturer's defect, the customer, along with the Quality Control Manager will decide what further action to take.

Returned goods will only be accepted if returned in their original packaging.
